

Executive Leadership

This combination assessment, workbook, and one-day workshop offers a proven process for bringing out individuals' best, developing other leaders in the organization, establishing leadership culture, and positively impacting the bottom line. Provides follow-up for senior leaders that have put management through Team Power Course.

How It Works

The LLCI is a comprehensive training package that includes a self-assessment, multi-rater assessment, workbook, and one-day workshop.

The self and multi-rater assessments evaluate leader strengths and weaknesses in the 5 Best Practices. In addition, the online multi-rater assessment provides leaders with specific information about how they are perceived by their employees, including an analysis of strong points and blind spots. The multi-rater assessments also feature an action planning application tool that enables leaders to identify and capture the areas they need to develop in order to improve performance.

The one-day workshop offers a comprehensive participant workbook, including takeaways such as a wallet reference card and reference guides.

Learning Outcomes

- Understand that legacy is created by leaders, who in turn develop other leaders
- Learn The 5 Best Practices Model and the associated 10 Critical Success Skills
- Top three strengths and challenges in each of the 5 Best Practices
- How to shift one's thinking to serve others first, then oneself
- Develop an action plan for becoming a "Legacy Leader"

Based on our experiential learning model, Programs give individuals the opportunity to learn by doing. The result: participants remember concepts long after the training ends — and know how to put them into immediate action.

Benefits of KCG Solutions

- Learner-focused format encourages active participation
- Hands-on involvement makes learning more meaningful
- Skill practice builds confidence
- Honest self-reflection inspires insight and specific action
- Feedback from others completes an accurate portrait of skill level
